-FOR IMMEDIATE RELEASE-

SECONDBITE PARTNERS WITH WOOLWORTHS TO TRIAL FRESH FOOD COLLECTIONS AND REDUCE FOOD WASTE IN VICTORIA AND TASMANIA

SecondBite is a dynamic not-for-profit organisation committed to making a positive difference to people by identifying sources of nutritious surplus fresh food, that might otherwise go to waste, and facilitating its safe and timely distribution to agencies and people in need.

SecondBite currently collects and re-distributes approximately 55 tonnes of fresh nutritious food every month to 95 agencies and local community programs that's enough food to provide 110,000 meals every month or 1.3 million meals a year. These agencies exist to ensure that individuals and families who have limited or no access to fresh nutritious food can be provided with vital assistance in times of need.

SecondBite has been quick to act and respond to the increased demand due to the economic downturn and continues to seek and foster relationships to facilitate our commitment to provide the very basic nutritional food requirements to an increasing community.

SecondBite are pleased to announce that fresh food collections will be trialling shortly from Woolworth's stores in Melbourne and Hobart with a vision to expand the programs state-wide.

SecondBite operates under the Good Samaritan Act in Victoria and were instrumental in introducing the Amendment to the Civil Liability Amendment Bill in Tasmania last year enabling operations to begin across the State.
